Join our virtual B2B Sessions with Italian companies organized with the support of the Ontario Aerospace Council (OAC):

OAC is pleased to share that the Italian aerospace mission is part of a 3-year multi-sector collaboration between Unioncamere Lazio (the association of Chambers of Commerce of the Lazio Region) and the Italian Chamber of Commerce of Ontario (ICCO Canada), to facilitate the development of new business relationships and potential partnerships for Italian companies in the Canadian market.

We have **20 Italian companies participating covering sectors in AEROSPACE, SPACE, DEFENCE, AI +++**. You may download the list to view company profiles and to help us setup your 25-minute meetings.

You do not have to participate in all sessions, simply share your availabilities and target companies and we will confirm your meetings on June 15th.
